

Positive ionisation mode

Chemical subclass

Quarternary ammonium amines
Other amines
Polar amino acids
Sulphur-containing amino acids
Acidic amino acids
Aromatic amino acids
Arginine derivatives (guanidines)
Tryptophan derivatives (indoles)
Histidine derivatives (imidazoles)
Nonpolar amino acids
Carbohydrate phosphates
Carbohydrates
Carbohydrate amines
Carbohydrate amino-phosphates
Hydroxy acids
Carboxylic acids
Keto acid
Aromatic acids
Carboxylic acid phosphate
Glycerophospholipids
Steroids and steroid derivatives
Fatty acyl
Sphingolipids
Glycerolipids
Prenol lipids
Nucleotides
Nucleobases and analogs
Nicotinamide derivatives
Nucleosides
Vitamins and cofactors
CoA and derivatives
Flavins
Folates
